Dear Mr. Martin:

This refers to Inspection 50-247/79-07 conducted by Mr. R. Bailey, Physical Security Inspector, on March 19-23, 1979, of activities authorized by NRC License No. DPR-26 at Indian Point Station. Your August 17, 1979, letter stated that it appeared that certain of our activities were not conducted in full compliance with NRC requirements. These activities were set forth in the Notice of Violation enclosed therewith as Appendix A. Our response to these items of non-compliance are presented in the attached Appendix A.

In accordance with Section 2.790(d) of the NRC's Rules of Practice, Part 2, Title 10, Code of Federal Regulations, correspondence and reports to or from the NRC which identify a licensee's control and accounting procedures for safeguarding licensed special nuclear material or detailed security measures for the physical protection of a licensed facility, are exempt from disclosure. We understand, therefore, that this letter will not be placed in the Public Document Room and will receive limited distribution.

Very truly yours,
