SLNRC 79-19 FILE: 0278.1
SUBJ: Request for Use of ASME Sec-
tion III Code Case N-240

Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U.S. Nuclear Regulatory Commission
Washington, D. C. 20555

Ref: STN 50-482
STN 50-483
STN 50-485
STN 50-486

Dear Mr. Denton:

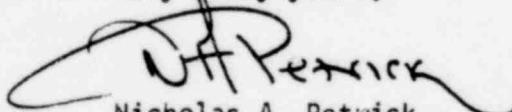

This letter is submitted on behalf of Kansas Gas and Electric Company, Rochester Gas and Electric Corporation, Kansas City Power and Light Company and Union Electric Company to request the concurrence of the Nuclear Regulatory Commission to use the following ASME Section III Code Case on the referenced SNUPPS Projects:

Code Case N-240 Entitled "Hydrostatic Testing of Open Ended Piping Section III Division 1.

Although not currently listed in Regulatory Guides 1.84 and 1.85 as an applicable code case, the subject ruling has been prepared and issued to make the requirements consistent with the function of an open ended pipe, i.e. to transport fluid.

NRC concurrence is requested for SNUPPS use of Code Case N-240.

Very truly yours,

Nicholas A. Petrick
