RE: Houston Lighting & Power Company (South Texas  
Project, Units 1 & 2), Docket Nos. 50-498A &  
50-499A; Texas Utilities Generating Company  
(Comanche Peak Steam Electric Station), Docket  
Nos. 50-445A & 50-446A

Gentlemen:

This is the report of the Public Utility Board of the  
City of Brownsville, Texas ("Brownsville") concerning its  
progress during September toward the completion of discovery  
in the above-captioned proceeding.

Brownsville continued to work with Central Power & Light  
Company to resolve problems concerning production and confiden-  
tiality of certain documents of CP&L and the other Central and  
Southwest Corporation ("CSW") companies responsive to Brownsville's  
interrogatories and requests for documents. Brownsville hopes  
that outstanding questions will be resolved shortly so that it  
can complete its review of CSW company documents responsive to  
Brownsville's data requests.

During the first week in October, Brownsville representatives  
participated in the depositions of Messrs. Siegelin, Durham and  
Price of CP&L. Brownsville is considering the need to notice  
depositions of additional CSW and CP&L officials, in view of the  
recent postponement or cancellation of some of the previously  
scheduled depositions of CSW company officials.

1289 341

7911070 370 m

At Brownsville's request, Houston Lighting & Power Company depositions of Brownsville employees scheduled during September were postponed until November. Brownsville sought this postponement, among other reasons, because of the conflicting demands of hearings scheduled before the Texas Public Utilities Commission during the same period in a docket in which Brownsville is a party.

During September, Brownsville provided additional documents to HL&P in response to specific requests. Brownsville has continued its review and organization of documents provided in response to its various data requests.

Respectfully submitted,

Robert A. Jablon  
Attorney for the Public Utility  
Board of the City of Brownsville,  
Texas
