October 30, 1979

Mr. D. G. Eisenhower
Director
Division of Operating Reactors
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555
U. S. A.

Dear Mr. Eisenhower:

I heard from Dr. K. Akino, JAPC staff, that USNRC wants to receive additional testing data than those opened by JAPC, for the vibration test of Tokai No. 2 Reactor Building. JAPC has recognized on such requirement that any foreign government should ask to Japanese government, or MITI in this case, and JAPC has to follow an indication by MITI.

JAPC contacted the officials of MITI to reply you as mentioned above, and they agreeded JAPC's consideration.

Very sincerely yours,

Y. Iwakoshi

Yonesuke Iwakoshi
General Manager
Construction Department
JAPC

cc: Dr. K. Akino
