Subject: Radiation Safety Training

Dear Mr. Gammill:

Your letter to all Power Reactor Licensees dated October 2, 1979 requested us to inform you if we would accept the ORAU certification in lieu of our basic radiation safety course. We have reviewed the material covered in the attachment and consider it adequate for a substitute for our program. We will still require a brief orientation regarding plant specifics but that will take only a few minutes and can be worked in with Security and Emergency Plan training.

Sincerely,

J. M. Pilant
Director of Licensing
and Quality Assurance
