Mr. Robert F. Burnett
Office of Nuclear Materials Safeguards
Director of Safeguards
U.S. Nuclear Regulatory Commission
Washington, D.C.

Dear Mr. Burnett:

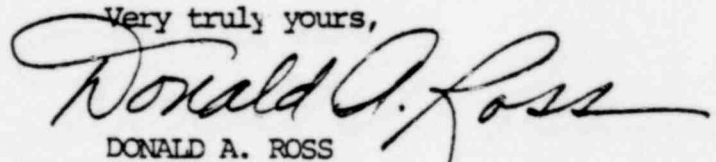

Subject: Oyster Creek Nuclear Generating Station
Docket No. 50-219
Notification of Changes in Security Programs

Several changes in the supervisory personnel of the security force have taken place at the Oyster Creek Nuclear Generating Station. These are:

- a. On April 1, 1979 a new position, Asst. Site Protection Supvr. (Training) was created to administer the security training of the security force & working personnel at Oyster Creek NGS.
- b. On October 1, 1979 due to a reorganization of the supervisory staff of Oyster Creek NGS the Asst. Site Protection Supervisor (Training) was reassigned from the Security Department to the Training Department and assigned primary duty responsible for the security training of security personnel & working personnel of Oyster Creek NGS.
- c. As previously reported, one Assistant Site Protection Supervisor, who is responsible for day-to-day operations of the Security Force, remains in the security organization.

These changes in no way diminish the security program.

Very truly yours,

DONALD A. ROSS
