Dear Mr. Denton:

Enclosed herein are five (5) copies of Applicant's Amended Physical Security Plan, Revision 2, dated August 23, 1979. This Plan supersedes our submittal of August 18, 1979 (SNRC-413) and incorporates Company responses to the NRC Staff questions on the Applicant's Amended Physical Security Plan, Revision 1, addressed during the meetings held on May 16 and 17, 1979 and referenced in the letter from Mr. Steven A. Varga to Mr. Andrew W. Wofford dated June 14, 1979.

As the information is proprietary in nature, the Company requests, pursuant to 10CFR2.790 and 9.3, that the information be accorded proprietary status and not placed in the Public Document Room.

Please note that our enclosed return receipt letter requests that superseded controlled documents or portions thereof be returned. In addition, collating instructions have been included for your convenience.

ANDREW W. WOFFORD, being duly sworn states that he is a Vice President of Long Island Lighting Company; that he is authorized on the part of said Company to sign and file with the U. S. Nuclear Regulatory Commission the foregoing Revision 2 to the Applicant's Amended Physical Security Plan, dated August 28, 1979 for the Shoreham Nuclear Power Station Unit 1, Docket No. 50-322; Revision 2 was prepared under his supervision and direction; and that the statements contained therein are true and correct to the best of his knowledge, information and belief and applying to the NRC to have the Plan withheld from public disclosure.

Under 10 CFR § 2.790 (d) the Plan contains "commercial or financial information" because it identifies detailed security measures for the physical protection of the Shoreham plant in which licensed special nuclear material will be possessed and used.

Therefore, the Company requests, pursuant to 10 CFR § 2.790 (b) and 9.3(a) (4)(i), that the Plan be withheld from public disclosure.
