Re: NRC Docket No. STN 50-437: Offshore Power Systems'
Application for License to Manufacture Floating
Nuclear Plants, Amendment No. 26

Dear Sir:

A. R. Collier
Vice President, Engineering

Offshore Power Systems hereby amends its application for License to Manufacture Floating Nuclear Plants by filing Amendment No. 26, dated January 3, 1979, to the Plant Design Report.

Amendment No. 26 deals solely with the subject matter of the Plant Design Report previously submitted and provides additional information requested in Mr. R.S. Boyd's letter of October 12, 1978, as modified by Mr. H.R. Denton's letter of December 22, 1978. Amendment No. 26 also includes other changes and errata to the text of the Plant Design Report. Instructions for the use of replacement pages are provided.

Amendment No. 26 consists of:

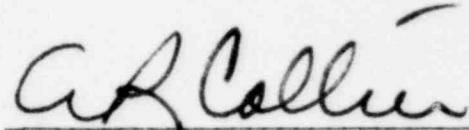

1. Three (3) originals of this letter.
2. Sixty-seven (67) conformed copies of this letter.
3. Seventy (70) sets of change pages, described above.

Consonant with 10 CFR 2.101, this amendment to the Offshore Power Systems' Application for License to

790109 0253

Manufacture Floating Nuclear Plants is being served on those persons identified in Enclosure 2 to the Nuclear Regulatory Commission letter signed by Roger S. Boyd and dated August 6, 1976, including the Honorable Jake M. Godbold, Mayor of the City of Jacksonville, Florida.

By

A. R. Collier
Vice President, Engineering
