Hon. John Ahearn

50-574

Nuclear Regulatory Commission
Washington, D.C.

EDWARD S. SKILLIN
132 FORT WOODS AVENUE
UPPER MONTCLAIRE, N.J. 07043

January 4, 1980

Dear Commissioner Ahearn:

For the safety and well-being
of the Filipino people — and our nation's role in
its relations with the Third World — may I
urge the Commission to deny the Westinghouse
Corporation the license to ship nuclear material
for a reactor to be set up in a dangerous earthquake
and volcanic belt in the Philippines.

As a concerned citizen I ask for
your most serious consideration and suggest public
hearings be called.

Witnessed by card.

110

Sincerely,

Edward S. Skillin
