

2 Brachman Lane

Cincinnati, Ohio 45230

January 2, 1980

Commissioner John Ahearne  
Nuclear Regulatory Commission  
1717 H Street, NW  
Washington, D C, 20006

Dear Sir:

In support of the rights of the Filipino People I urge you to deny an export licens to Westinghouse Electric Corporation.

Both the New York Times and the brief prepared by the citizens group, Friends of the Filipino People, point up an attitude of disregard for the good health and safety of human beings.

Furthermore, in the interest of world security, I object to the proposal to make nuclear materials available to the Marcos regime.

The NRC must insure that economic advantage is not accepted as the ultimate good considered.
