B. The following individuals are authorized users for the material and medical uses as indicated:

Authorized Users

Juan A. Jurado, M.D.

Material and Use

Strontium-90 for ophthalmic radiotherapy

C. Notwithstanding the requirements in 10 CFR 35.433 that "only an authorized medical physicist shall calculate the activity of each strontium-90 source that is used to determine the treatment times for ophthalmic treatments," David M. Rhoe may calculate the activity of the licensee's strontium-90 source that is used to determine treatment times for ophthalmic treatments.

13. Except as specifically provided otherwise in this license, the licensee shall conduct its program in accordance with the statements, representations, and procedures contained in the documents, including any enclosures, listed below. This license condition applies only to those procedures that are required to be submitted in accordance with the regulations. Additionally, this license condition does not limit the licensee's ability to make changes to the radiation protection program as provided for in 10 CFR 35.26. The U.S. Nuclear Regulatory Commission's regulations shall govern unless the statements, representations, and procedures in the licensee's application and correspondence are more restrictive than the regulations.
