**Date:** Friday, September 13, 2019 11:28:44 AM

---

Good Morning!

My name is Juan Fontanez, MD.

President of Nuclear Scan, PSC and user of the license 52-31182-01

I am answering your request for additional information to add a facility to the Nuclear Scan, PSC license.

Answer to your three question.

1. It is an office in the building with other occupants. No radioactive material utilized in other spaces.
2. The correct name is Centro Medicina Nuclear de Las Piedras at the top of the facility diagram is the office name. No new name for the company.
3. No. The old location will not be removed from the license.

Thank you! I appreciate your help.

Let me know to me or David Rhoe if you have any questions

Juan Fontanez, MD

President

Nuclear Scan, PSC
