SUBJECT: QUALITY ASSURANCE PROGRAM APPROVAL FOR RADIOACTIVE
MATERIAL PACKAGES NO. 0963, REVISION NO. 1

Dear Ms. Cowan:

Enclosed is the Quality Assurance (QA) Program Approval for Radioactive Material Packages No. 0963, Revision No. 1, in response to your letter dated August 14, 2019, Agencywide Documents Access and Management Systems (ADAMS) Accession No. ML19227A044. You have been assigned the same docket number, 71-0963, as the previous QA Program Approval holder for the Pilgrim Nuclear Power Station. Please reference this docket number on future correspondence. This Approval satisfies the requirements of Title 10 of the *Code of Federal Regulations* (10 CFR) 71.17(b) and 71.101(f) for a QA Program approved by the U.S. Nuclear Regulatory Commission (NRC).

Termination of your materials license does not cause the enclosed Approval to be automatically terminated. If you wish to amend your QA Program and have determined it reduces commitments, or terminate this Approval, please request it in writing.

This letter also serves as a reminder that if you are using or planning to use an NRC-approved packaging, you must be registered for use of that packaging with NRC. Registration for use of NRC-approved packagings should be made pursuant to 10 CFR 71.17(c)(3).

If you have any questions, please contact me at 301-415-7210 or Jon Woodfield at 301-415-8727.

Sincerely,

/RA David Pstrak Acting for/
