Criteria to Return Retired Nuclear Power Reactors to Operations

Comment On: NRC-2019-0063-0003

Criteria to Return Retired Nuclear Power Reactors to Operations

Document: NRC-2019-0063-DRAFT-0016

Comment on FR Doc # 2019-15934

Submitter Information

Name: Josh Bolduc

Address: United States,

General Comment

Any nuclear power plant that has shut down for a long period of time and can be returned to service after a thorough inspection, should be able to do so. To see so many idle reactors in this country is wasteful. Many of these plants still have decades of useful service life left, and as others have stated, this clean and always on power source is vital to combat climate change. This bill is a fantastic idea and long past due for this industry.
