  - 4) Letter (377509), B. C. Bower to A. Snyder, "U.S. Department of Energy West Valley Demonstration Project (DOE-WVDP) Responses to U.S. Nuclear Regulatory Commission (NRC) Comments on DOE-WVDP Main Plant Process Building (MPPB) Decommissioning & Demolition (D&D) Plan, WVDP-586, Rev. 1, dated February 27, 2017," dated February 5, 2018

Dear Ms. Snyder:

DOE-WVDP is hereby providing the U.S. Nuclear Regulatory Commission (NRC) with Revision 3 of the Plan. As indicated in Reference 1, DOE-WVDP will provide the additional information requested by NRC (Reference 2) and review it with NRC staff, once it is finalized.

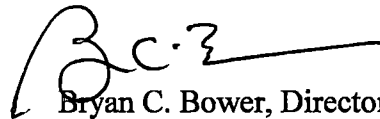

September 12, 2019

The Plan was updated to reflect the current status of pre-demolition activities, including removal of the upper, stainless steel portion of the MPPB stack. With Reference 3, NRC previously indicated that they had no further comments on the MPPB stack demolition portion of the work plan and that NRC understood that demolition of the upper portion of the stack would be conducted in the near term (relative to the August 2018 timeframe).

Revision 3 of the Plan also contains additional information as previously provided in the responses to the NRC comments on Revision 1 of the Plan (Reference 4).

Please contact Moira Maloney of my staff at (716) 942-4255 if you have any questions, need additional information, or if you would like to schedule a conference call to discuss the attached.

Sincerely,

Bryan C. Bower, Director  
West Valley Demonstration Project
