Subject: Additional Information Needed for Renewal of your NRC Materials License
Date: Friday, August 09, 2019 1:33:00 PM
Attachments: 1556 Vol. 1, Rev. 2 Appendix B Form.pdf
NUREG 1556 Vol. 1, Rev. 2.pdf

Good Afternoon Mr. Cicola,

Thank you for taking the time to discuss the renewal of your NRC materials license with me this afternoon. As we discussed on the telephone, I will need some additional information to complete your license renewal. Please provide a signed and dated response letter with the attached information no later than Wednesday, August 21, 2019.

1. In your renewal application you did not include Items 5 through 11 of NRC Form 313. For your convenience, you may use Appendix B, "Suggested Format for Providing Information Requested in Items 5 through 11 of NRC Form 313," to NUREG 1556 Vol. 1, Rev. 2 to provide this supporting information. Detailed guidance for completing each application item requested on the NRC Form 313 is located in Chapter 8, "Contents of an Application" in NUREG 1556 Vol. 1, Rev. 2. For your convenience I have attached a fillable PDF copy of the checklist to this email. If you choose to use the attached checklist to submit this information, please make sure that you have included the following information:
 - Gauge Manufacturer and Model Nos., specific activity per sealed source, and the number of each type of gauge you would like to have authorized on your license
 - Please note, for Item No.10.8 you must make a selection for both *Routine Cleaning and Lubrication* and *Nonroutine Maintenance* (there are two separate boxes that must be checked).
2. In your renewal application you did not include facility diagram for the address where material will be used and possessed. The diagram should be drawn to scale and include the use of adjacent areas (including above and below), and information relevant to public dose and security. Additional information regarding public dose and security is discussed in Sections 8.10.5, "Public Dose," and 8.10.6, "Operating, Emergency, and Security Procedures," to NUREG 1556, Vol. 1, Rev. 2.
3. In your renewal application you did not request to use your gauges at temporary job sites. In your response letter in please indicate that you intend to use the portable gauges at temporary jobsites.

Please let me know if you have any questions about anything that we discussed today.

Thank You,

Erin Kennedy

Subject: Renewal - Materials License No. 21-32737-01 - Additional Information Requested

Good afternoon, Mr. Cicola,

We have received your NRC Form 313, requesting renewal of subject nuclear materials license. Items 5-11 of the form were not addressed in this submission. In order to complete your renewal request, please submit those items to our office at your earliest convenience.

If I can be of additional assistance, please do not hesitate to contact me.

Thank you,

Tammy Tomczak
Licensing Assistant
