Mr. Samuel J. Chilk  
Secretary  
U.S. Nuclear Regulatory Commission  
Washington, D. C. 20555

In the Matter of Public Service Electric and Gas Company  
and Atlantic City Electric Company  
(Hope Creek Generating Station, Units 1 and 2)

Dear Mr. Chilk:

The captioned matter is now pending before the Commission pursuant to 10 CFR §2.786 following the issuance of the Appeal Board's decision dated January 12, 1979 (ALAB-518).

On January 19, we learned that the Federal Energy Regulatory Commission on January 10 rejected the application filed in July 1975 by Tenneco LNG, Inc. to build a liquified natural gas terminal at West Deptford, New Jersey. The Commission has not yet published its order. Accordingly, we are transmitting a copy of its press release dated January 15, 1979 for your information (see pages 2-3).

We will provide a copy of the order as soon as it is available.

Sincerely,

Troy B. Conner, Jr.
