Mr. James G. Keppler
Regional Director, Region III

Dear Mr. Keppler:

Under separate cover, we are transmitting two (2) copies of the 1978 Annual Environmental Operating Report for the Davis-Besse Nuclear Power Station Unit No. 1.

The data collected are generally consistent with 1977 and earlier data and do not indicate any unusual conditions for Western Lake Erie and the area surrounding the plant site. None of the operating limits as set forth in the Davis-Besse Unit No. 1 Technical Specifications were exceeded.

Yours very truly,
