NRC PUBLIC DOCUMENT ROOM

May 2, 1979

Mr. Harold Denton
Director of Nuclear Reactor Regulation
U. S. Nuclear Regulatory Commission
Washington, DC 20053

RE: In the Matter of Public Service Company of
NH, et al.
(Seabrook Station, Units 1 and 2)
Docket Nos. 50-443, 50-444

Dear Mr. Denton:

I am enclosing for your information an additional Request for a Show Cause Order in regard to the Seabrook construction permits.

This request, on behalf of the Seacoast Anti-Pollution League, is not made lightly. It was clearly foreshadowed in my letter to you of March 12, 1979, in which I indicated my concern about the failure to investigate the consequences of a Class 9 accident in the Seabrook site review.

That concern, of course somewhat further stimulated by events at Three Mile Island, prompts the present request.

Very truly yours,

Robert A. Backus
