Gentlemen:

In accordance with your letter dated March 28, 1979, please find enclosed Amendment No. 1 to the "In-Service Inspection Program" for Plant Hatch Unit 1 which was submitted by our letter dated August 3, 1978. This amendment incorporates additional information into the program description which is needed for the NRC to complete their review, as discussed with the staff at the site meeting on February 22, 1979. The August 3, 1978, submittal of the program description should be replaced in its entirety by this amendment.

Yours very truly,
