Stop Work Directive for Bingham-Willamette Company

Gentlemen:

In our letter of April 25, 1979, which submitted the initial interim report relative to the Stop Work Directive for Bingham-Willamette, we indicated that we planned to issue a final report by June 4, 1979. The evaluations of our findings to date and the proposed corrective actions require that we submit an additional interim report at this time.

Attached is the second interim report pertaining to Stone and Webster Purchase Order Numbers 2BV-15, 2BV-24 and 2BV-208 for Category I Recirculation Spray Pumps, Quench Spray Pumps and Auxiliary Feedwater Pumps respectively.

We now plan to issue the final report to you by July 20, 1979.
