CORRECTION TO DECLARATION OF ROY W. BROWN

On September 13, 2019, Curium US LLC (“Curium”) petitioned to intervene and request a hearing in the above-captioned export licensing proceeding (“Petition”). Curium subsequently noted a small error in the Declaration of Roy W. Brown (“Declaration”), which was filed with the Petition. Accordingly, Curium files this correction to the Declaration.

**CORRECTION TO DECLARATION OF ROY W. BROWN
PERTAINING TO PETITION TO INTERVENE AND
REQUEST FOR HEARING OF CURIUM US LLC**

I, Roy W. Brown, do hereby state as follows:

1. I executed a declaration (the "Declaration"), which was submitted along with Curium US LLC's petition to intervene in the above-captioned proceeding on September 13, 2019.

2. In doing so, I inadvertently submitted certain incorrect information in Paragraph 42, which should be corrected as follows (with new text underlined and old text struck through):

42. The transition to LEU targets is separate from the *fuel* the reactor uses, which has the biggest impact on reactor performance. The High Flux Reactor, LVR-15 reactor, and MARIA reactors have all converted to use LEU fuel. The BR-2 ~~and LVR-15~~ reactors continues to operate on HEU fuel. ~~The BR-2 reactor was recently refueled with Russian origin HEU.~~

3. I declare under penalty of perjury that my statements set forth above are true and correct to the best of my knowledge, information, and belief.

Executed in Accordance with 10 CFR § 2.304(d)
