

UNITED STATES  
NUCLEAR REGULATORY COMMISSION  
WASHINGTON, D.C. 20555-0001

October 9, 2019

Ms. Pat Jenny, Safety and Security Manager  
General Electric-Hitachi  
Global Laser Enrichment, LLC  
P.O. Box 780  
3901 Castle Hayne Road  
Wilmington, NC 28402

SUBJECT: REQUEST FOR ADDITIONAL INFORMATION REGARDING THE GLOBAL  
LASER ENRICHMENT PROPOSED TRANSPIRATION PLAN FOR DISPOSAL  
OF WASTE (GLE-2019-0105)

Dear Ms. Jenny:

Global Laser Enrichment (GLE) submitted a waste disposal transportation security plan to the U.S. Nuclear Regulatory Commission (NRC) by a non-publicly available letter dated July 11, 2019 (GLE-2019-0105) (Agencywide Documents Access and Management System (ADAMS) Accession No. ML19198A084). The letter was accepted for formal review via NRC email dated July 31, 2019 (ADAMS Accession No. ML19212A720). The plan is part of a GLE effort to reduce the amount of legacy materials stored at the facility prior to the proposed company restructuring.

The NRC staff reviewed the proposed security transportation plan and identified a number of requests for additional information (RAI), which must be provided for the NRC staff to complete the review. Please provide a written response to the enclosed RAIs, and a corresponding update to the security transportation plan, within 30 days from the date of this letter.

In accordance with Title 10 of the *Code of Federal Regulations*, Section 2.390, "Public inspections, exemptions, requests for withholding," of the NRC's "Agency Rules of Practice and Procedure," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records component of the NRC's ADAMS. ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Documents transmitted herewith contain Security-Related Information. When separated from the sensitive conditions in enclosure 1, this document is decontrolled.
