Leo,

At the moment, we have one nuke gauge stored in our VT office (Seman Nuclear Model C-300, SN# 21250) that is being transferred to our CT office tomorrow (9/27/2019).

1. Attached is the most recent leak test for gauge #21250).
2. Gauges stored in this facility (54 Main Street, Windsor, VT 05089) have never leaked.

Let me know if you need anything more from me.

Jake

Mr. Wimett,

This refers to your request to amend your license dated July 31, 2019. In order to continue our review of your request, the following additional information is needed:

1. Please email me a copy of the latest leak check(s) for the portable gauge(s) that was stored at your 54 Main St., Windsor, VT, location.
 2. Please state that the portable gauge(s) stored at your 54 Main St., Windsor, VT location have never leaked.
- Please note, your current license expires November 30, 2019. Please submit an application/letter to renew your license as soon as possible. If you have any questions about the renewal of your license, you may refer to NUREG-1556, Vol.1, Rev. 2, Consolidated Guidance About Material Licenses, Program-Specific Guidance About Portable Gauge Licenses.

[NRC: Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Portable Gauge Licenses, Final Report \(NUREG-1556, Volume 1, Revision 2\)](#)

Your reply must be an originally signed and dated letter. The letter may be scanned and submitted as a pdf document attached to an email; or it may be transmitted by facsimile to (610) 337-5269; or it may be sent by regular mail. Please reply as soon as possible due to the transition of the State of Vermont to an Agreement State.
