LICENSEE:

The inspection was an examination of the activities conducted under your license as they relate to radiation safety and to compliance with the Nuclear Regulatory Commission (NRC) rules and regulations and the conditions of your license. The inspection consisted of selective examinations of procedures and representative records, interviews with personnel, and observations by the inspector. The inspection findings are as follows:

1. Based on the inspection findings, no violations were identified.

2. Previous violation(s) closed.

3. The violations(s), specifically described to you by the inspector as non-cited violations, are not being cited because they were self-identified, non-repetitive, and corrective action was or is being taken, and the remaining criteria in the NRC Enforcement Policy to exercise discretion, were satisfied.

Non-Cited Violation(s) was/were discussed involving the following requirement(s) and Corrective Action(s):

4. During this inspection certain of your activities, as described below and/or attached, were in violation of NRC requirements and are being cited. This form is a NOTICE OF VIOLATION, which may be subject to posting in accordance with 10 CFR 19.11.

Licensee's Statement of Corrective Actions for Item 4, above.

I hereby state that, within 30 days, the actions described by me to the inspector will be taken to correct the violations identified. This statement of corrective actions is made in accordance with the requirements of 10 CFR 2.201 (corrective steps already taken, corrective steps which will be taken, date when full compliance will be achieved). I understand that no further written response to NRC will be required, unless specifically requested.

Dr. Rink,

Thanks for your time during the inspection that I conducted on July 9, 2019, at your facility in Princeton, Idaho. It was good to see that since the last inspection you have commenced NRC licensed activities using Kr-85. Also thanks for following up with me after the inspection to provide the requested documents. As I discussed with you at the conclusion of the onsite inspection, based on the scope of the inspection, no violations were identified.

Attached is a copy of the Inspection Report NRC Form 591M for your records. It indicates that based on the inspection, no violations were identified. No response to the Inspection Report is required, however, I would appreciate it if you can please respond with a courtesy email acknowledging receipt.

Have a great day and please contact me if you have any questions.

Janine
