General Comment

Dear members of the Nuclear Regulatory Commission,

I am supportive of nuclear energy and live a few miles from the Diablo Canyon nuclear reactor in California. As you know this is being phased out as it doesn't meet safety standards.

I respectfully request that the standards are not rolled back and that reactors like Diablo Canyon are decommissioned. The boon to our local economy would not be worth the devastation my region would experience if a disaster were to occur.

Safe nuclear power is possible, but not at the cost of community health.

Thank you,
Megan LeBlanc, PhD
Oceano, CA
