OFFICE NUMBER
50-338,339-2

Dear Mr. Rosenthal:

I am greatly concerned over the serious question of safety at the North Anna nuclear plant.

I urge the Appeals Board not to increase VEPCO's allowable settlement. A hearing should be held to make public all the shocking facts concerning settlement conditions and risks beneath all North Anna buildings.

In my opinion, VEPCO's operating license for the North Anna plant should be revoked.

This whole situation has been a national scandal since its inception.

Sincerely,
Virginia Jensen
