Alan Rosenthal, Esq., Chairman
Atomic Safety and Licensing Board
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

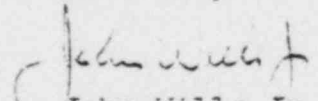

Dear Mr. Rosenthal

As a Virginia citizen I am deeply concerned about the safety of the North Anna nuclear power plant and specifically its sinking pump house.

The false assurances of the Rasmussen Safety Study should tell us that safety measures need to be increased not decreased.

I therefore urge the appeal board not to increase VEPCO's "allowable settlement" but to hold a public hearing concerning settlement conditions and risk beneath all North Anna building; and to investigate revocation of North Anna's operating license for withholding settlement information from the Atomic Safety and Licensing Board.

Sincerely

John Wills Jr.
