Date: Wednesday, September 18, 2019 6:37:00 AM

Dr. Fontanez,

Thanks for the information. I do have a couple follow-up questions:

1. Please confirm that you wish to use the same materials at this location (i.e. 35.100; 35.200; and I-131 for outpatient use only).
2. What is above and below your nuclear medicine suite?
3. What equipment do you plan to use? Is it comparable to the equipment in your existing facility? Any shielding used?

Thanks again. I look forward to hearing from you soon.

Subject: [External_Sender] Additional information to add a facility to the license number 52-31182-01

Good Morning!

My name is Juan Fontanez, MD.

President of Nuclear Scan, PSC and user of the license 52-31182-01

I am answering your request for additional information to add a facility to the Nuclear Scan, PSC license.

Answer to your three question.

1. It is an office in the building with other occupants. No radioactive material utilized in other spaces.
2. The correct name is Centro Medicina Nuclear de Las Piedras at the top of the facility diagram is the office name. No new name for the company.
3. No. The old location will not be removed from the license.

Thank you! I appreciate your help.

Let me know to me or David Rhoe if you have any questions

Juan Fontanez, MD

President

Nuclear Scan, PSC
