Re: Docket 50-326, License: R-116

Gentlemen:

Please find enclosed two copies of the annual report for our TRIGA reactor for the period July 1st, 1977 - June 30th, 1978. It was recently discovered that this report had not been finalized and filed and had been overlooked since its due date (8/1/78)!

The opportunity is taken to include copies of materials related to the unloading and reloading of our reactor accomplished in October-November, 1978.

The late submission is much regretted and steps will be taken to assure that reports are submitted on a timely basis in the future.

Sincerely yours,

George E. Miller

George E. Miller
Lecturer in Chemistry
and Reactor Supervisor
