Dr. Hajedemos and Ms. Blankenship, we require the following additional information to add Dr. Jimenez to the above license:

1. ABR certification in Diagnostic Radiology is an approved board for 10 CFR 35.100, 200, 392, and 394. Full 35.390 and/or 10 CFR 35.396 is not authorized. Please clarify that you request the following authorizations for Dr. Jimenez based on his board certification – 10 CFR 35.100, 35.200, 35.392, and 35.394.
2. Dr. Jimenez participated in a single patient treatment of Theraspheres on one day involving the administration to 3 separate segments/lobes. Please provide documentation for 2 additional patient treatments to complete his clinical casework. Additionally, if BTG proctored clinical casework in addition to in-vitro cases, documentation to support this training may be submitted.
3. Dr. Takahashi proctored Dr. Jimenez; however we are unable to confirm that the clinical casework was submitted to show that Dr. Takahashi completed his training. Our files for the Hospital of Central Connecticut, MidState Medical Center, and Middlesex Hospital were reviewed; however, no documentation of this training was located. Please submit the clinical casework completed by Dr. Takahashi.

You may submit the above information to my attention either via signed pdf sent to my email or via fax to 610-337-5269. Please reference Mail Control No. 615316 in your reply. Thank you for your assistance.
