PG&E Letter DCL-19-091

ATTN: Document Control Desk  
U.S. Nuclear Regulatory Commission  
Washington, DC 20555-0001

Docket No. 50-275, OL-DPR-80  
Docket No. 50-323, OL-DPR-82  
Diablo Canyon Units 1 and 2

Letter to Inform the NRC of the Submittal Date for the Post-Shutdown  
Decommissioning Activities Report, Site-Specific Decommissioning Cost  
Estimate, and Irradiated Fuel Management Plan

Reference:

1. PG&E Letter DCL-18-096, "Certification of Permanent Cessation of Power Operations," dated November 27, 2018 (ML18331A553)

Dear Commissioners and Staff:

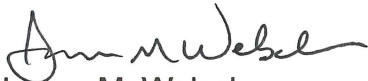

In Reference 1, Pacific Gas and Electric Company (PG&E) notified the NRC of the intent to permanently cease power operations at Diablo Canyon Power Plant (DCPP) Units 1 and 2 upon expiration of the operating licenses. In June 2019, PG&E had a pre-submittal meeting with the NRC to discuss plans to submit the Post-Shutdown Decommissioning Activities Report (PSDAR), Site-Specific Decommissioning Cost Estimate (SSDCE), and Irradiated Fuel Management Plan (IFMP) for DCPP, Units 1 and 2. The SSDCE will be submitted to satisfy the requirements for including an SSDCE with the PSDAR, and to satisfy the requirement to submit a preliminary decommissioning cost estimate (DCE). In accordance with 10 CFR 50.54(bb), the IFMP for DCPP Unit 1 is due November 2, 2019, which is five years before the expiration of the reactor operating license. In addition, in accordance with 10 CFR 50.75(f)(3), the preliminary DCE is required to be submitted at or about five years prior to the projected end of operations.

The purpose of this letter is to inform the NRC that PG&E is committing to submit the PSDAR, SSDCE, and IFMP for DCPP, Units 1 and 2 by December 6, 2019. The reason for delaying these submittals is to allow additional time for external engagement associated with these key decommissioning submittals.

New regulatory commitments (as defined by NEI 99-04) are provided in the Enclosure.

If you have any questions regarding this letter, please contact Mr. Philippe Soenen at (805) 459-3701.

Sincerely,

James M. Welsch

*Senior Vice President Generation and Chief Nuclear Officer*
