November 5, 2019

Mr. Cyrus B. Randelia, President
Kuskokwim Architects & Engineers, Inc
P.O. Box 91970
Anchorage, AK 99509

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 50-27762-01

By letter dated September 23, 2019, you informed the U.S. Nuclear Regulatory Commission (NRC) of your request to terminate NRC radioactive materials license number 50-27762-01 and notified the NRC that all radioactive material had been transferred to a licensed entity. In support of the license termination request, you provided copies of the most recent leak test results and a letter from the recipient confirming receipt of the licensed material. Based on the documentation submitted to the NRC and a review of your historical file, the staff concluded that all licensable radioactive material has been removed from your facility and the facility located at 2400 Spenard Road, Anchorage, Alaska 99503, is suitable for unrestricted use in accordance with 10 CFR 20.1402, "Radiological Criteria for Unrestricted Use." No further remediation or actions with respect to NRC regulated material is required.

Please find enclosed Amendment No. 2 to License No. 50-27762-01 authorizing your license termination. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(20)(ii).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions or require clarification on any of the information stated above.

Sincerely,

Roberto J. Torres
