Subject: [External_Sender] Was Something Overlooked?

Good morning,

A comment was made at about 1:47 in the NRC Commission meeting of 10/25/2018 that seems even more applicable today. The comment was something like: "maybe the Commission should set another meeting" because the topic "has not been getting consistent attention". I would agree even more so today. The topic is Digital I & C.

There was a meeting on Transformation on 10/29/2018. Exactly one year later, on 10/29/2019, there was another meeting on Transformation.

There was a meeting on Digital I & C on 10/25/2018. Exactly one year later, on Friday, 10/25/2019 there was no meeting on Digital I & C.

Was something overlooked?

Thank you,

Tom Gurdziel
