November 8, 2019

Mr. Stephen Haddock
Radiation and Explosives Director
Cudd Pumping Services, Inc.
P.O. Box 2357
Williston, North Dakota 58802-2357

SUBJECT: TERMINATION OF NRC RADIOACTIVE MATERIALS LICENSE NO. 25-35228-01

By letter dated September 26, 2019, you requested the U.S. Nuclear Regulatory Commission (NRC) to terminate NRC radioactive materials license number 25-35228-01. This letter states that all radioactive material currently authorized under the NRC license will continue to be used under an Agreement State license.

The staff has reviewed the statements made in your letter dated September 26, 2019, and NRC inspection report. Information in the docket file shows that your company has an active State of North Dakota license that authorizes the same types of material and devices as in the NRC license. NRC license number 25-35228-01 authorizes work only at temporary job sites in NRC jurisdiction and thus there are no field stations in NRC jurisdiction that need to be released for unrestricted use. Based on the statements made and a review of your historical file, the staff concluded that all NRC licensable radioactive material will continue to be used in Agreement State jurisdiction under the terms of an Agreement State license.

Please find enclosed Amendment No. 2 authorizing termination of NRC license number 25-35228-01. An environmental assessment for this action is not required since this action is categorically excluded under 10 CFR 51.22(c)(14)(xvi).

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

You can contact me at 817-200-1189 if you have questions on the information stated above.

Sincerely,

Roberto J. Torres, M.S., Senior Health Physicist
Materials Licensing and Decommissioning Branch
