**Subject:** Additional Information Request for Eli Lilly and Company, NRC License No. 13-01133-02, CN614076

Dear Mr. Mays,

Our office has reviewed your August 29, 2019 letter requesting to remove two locations of use from the referenced license. As we discussed via phone on Monday, October 7, 2019, please note that additional information is needed to complete our review. Accordingly, we are sending this email request to confirm that – combined with the removal of the fixed gauges at the Clinton Laboratories location of use – non-routine maintenance activities associated with fixed gauging devices will no longer be conducted under the license.

**In accordance with this change, as discussed, please:**

- **Confirm that the licensee will no longer conduct non-routine maintenance – as described in NUREG 1556, Volume 4, rev. 1, “Consolidated Guidance About Materials Licenses: Program-Specific Guidance About Fixed Gauge Licenses,” Section 8.10.8 - Maintenance, pp. 8-29 through 8-30 – of fixed gauging devices;**
- **Confirm that you wish to remove Thomas Rudolph from the license, as an individual authorized to conduct non-routine maintenance operations; and**
- **Confirm the statement: “The gauge manufacturer, distributor, or other person licensed by the NRC or an Agreement State will perform nonroutine operations such as installation, initial radiation survey, repair and maintenance of radiological safety components, relocation, replacement, alignment, removal from service, and disposal of sealed sources.”**

**Please provide the requested information within 14 days of this message (on or before October 23, 2019).** Include a signed and dated cover letter transmitting your resubmitted application. Submission of your response as a pdf file attached to an email or via facsimile will allow for the quickest processing. Please call or email me with any questions you may have, or if you are unable to respond by the date suggested above. Please also contact me as soon as possible to let me know that you have received this message and are working on a response.

Please do not hesitate to contact me if you have any questions concerning this message.

Sincerely,

Sara A. Forster, Health Physicist Licensing Reviewer
