Robert,

This refers to your request to amend your license dated October 17, 2019. In order to continue our review of your request, the following additional information is needed:

1. Please submit a copy of the letter from QSA Global that states they have taken possession and ownership of your QSA Global exposure device Model 680B, s/n 177B, and the source that was contained in that exposure device.
2. Please submit a copy of the latest leak checks for the QSA Global exposure device Model 680B, s/n 177B, and the source that was contained in that exposure device.
3. Please state that the QSA Global exposure device Model 680B, s/n 177B, and the source that was contained in that exposure device had never leaked while in your possession.
4. In NUREG-1556, Vol. 2, Rev. 1, Consolidated Guidance About Materials Licenses, Program-Specific Guidance About Industrial Radiography Licenses, section 8.13, Item 13: Certification, it states in part that the representative signing the application/letter must be authorized to make binding commitments and to sign official documents on behalf of the licensee. Please have a representative of the company that is authorized to make binding commitments and sign official documents on behalf of the company sign the reply to the request for additional information. OR Submit a letter signed by a representative of your company that is authorized to make binding commitments and sign official documents on behalf of your company that designates you the authority to make binding commitments and sign official documents of behalf of your company in regards to your radiation safety program.
