## **Audit Report**

### **AUDIT OF THE NRC OVERSIGHT OF SUPPLEMENTAL INSPECTION CORRECTIVE ACTIONS**

**OIG-19-A-19**

#### **Status of Recommendations**

Recommendation 1: Update NRC inspection guidance to support documentation of significant planned corrective actions associated with 95001 and 95002 supplemental inspections.

Agency Response Dated  
October 10, 2019:

The staff agrees with the recommendation and plans to update the NRC inspection guidance to support documentation of significant planned corrective actions associated with 95001 and 95002 supplemental inspections.

Specifically, the staff plans to update Inspection Manual Chapter (IMC) 0611, Appendix C, the governance for documenting Supplemental Inspection Procedures (IPs) 95001 and 95002, and other governance, as necessary, by August 31, 2020. The goal of the revision will be to assure that inspectors document enough information to assure effective follow-up inspection can be scheduled and completed in accordance with the plan proposed by the licensee and accepted by the NRC at the end of the supplemental inspection.

Contact: Thomas R. Hipschman, (301) 415-1169

OIG Analysis: The proposed actions meet the intent of this recommendation. The recommendation will be closed after OIG reviews the update to IMC 0611, Appendix C, and verifies that it supports appropriate documentation of significant planned corrective actions associated with 95001 and 95002 supplemental inspections.

**Status:** Open: Resolved.

#### **Status of Recommendations**

Recommendation 2: Implement an efficient means for inspectors to readily identify and retrieve information about completed and planned corrective actions associated with 95001 and 95002 supplemental inspections.

Agency Response Dated  
October 10, 2019:

The staff agrees with the recommendation and plans to make improvements in guidance needed to support an efficient means for inspectors to readily identify and retrieve information about completed and planned corrective actions associated with IPs 95001 and 95002.

Specifically, the staff plans to update IMC 0611, Appendices C and D, the governance for documenting both supplemental inspection and baseline problem identification and resolution inspection reports, respectively, and other governance, as necessary, by August 31, 2020. The revisions will direct the documentation of specific information needed to readily identify and retrieve significant completed and planned corrective actions. This will include input from various staff efforts to improve efficiency and effectiveness in the Reactor Oversight Process.

OIG Analysis:

The proposed actions meet the intent of this recommendation. This recommendation will be closed after OIG reviews the update to IMC 0611, Appendices C and D, and verifies that the update supports identification and retrieval of information pertaining to significant planned and completed corrective actions associated with 95001 and 95002 supplemental inspections.

**Status:**

Open: Resolved.
