## General Comment

As a user of the Congaree River for over 50 years I am asking you to please do a environmental assessment on this site.

We am already limited on how much fish we can eat per month..now I am afraid more pollution from this site will make all wildlife and fish tainted.

For years we have heard about leaks and spills.

It's time to get the truth about what is really entering our environment. I want my children and grandchildren to be able to enjoy this beautiful resource throughout their lives.

Thank you in advance.
