STE. 730
Dulles, VA 20166

Dear Mr. Levy:

Enclosed is Amendment No. 17 to your NRC Material License No. 24-32827-01MD in accordance with your September 12, 2019 request to add an authorization for germanium-68/gallium-68 generator use. This amendment also reflects your August 7, 2019 notification of the addition of Khalil Flowers, R.Ph. to the list of Authorized Nuclear Pharmacists (ANPs) listed on your license. These documents may be found in our NRC Agencywide Documents Access and Management System (ADAMS) at accession numbers ML19256A020 and ML19220A209, respectively.

Please review the enclosed document carefully and be sure that you understand all conditions. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region III office at (630) 829-9887 so that we may provide appropriate corrections and answers.

Please note that our review of your May 10, 2019 Decommissioning Funding Plan and Cost Estimate – associated with the addition of the germanium-68 is ongoing, under NRC Mail Control No. CN613832. We will let you know if additional information is needed to complete that review, or if we find the cost estimate to be adequate.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

The enclosed document contains sensitive security-related information.
When separated from this cover letter this letter is uncontrolled.

M. Levy

NRC's Regulatory Issue Summary (RIS) 2005-31 provides criteria to identify security-related sensitive information and guidance for handling and marking of such documents. This ensures that potentially sensitive information is not made publicly available through ADAMS, the NRC's electronic document system. Pursuant to NRC's RIS 2005-31 and in accordance with Title 10 of the *Code of Federal Regulations* Section 2.390, the enclosed license document is exempt from public disclosure because its disclosure to unauthorized individuals could present a security vulnerability. The RIS may be located on the NRC Web site at: <http://www.nrc.gov/reading-rm/doc-collections/gen-comm/reg-issues/2005/ri200531.pdf> and the link for frequently asked questions regarding protection of security related sensitive information may be located at: <http://www.nrc.gov/reading-rm/sensitive-info/faq.html>.

A copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Sincerely,

Sara A. Forster, M.S.
