Subject: Amendment request to add an area of use, NRC license no. 24-02704-01

Good morning Mr. Anzalone,

I have reviewed the request dated 10/16/19 to add a new area of use and Authorized Users to NRC license no. 24-02704-01.

In a signed (by Patrick O'Toole, M.D.) and dated cover letter, please provide the following information:

- a) Describe/label details in Room #293 (Hot Lab) such as sink, material storage area, waste storage, receipt area, dose calibrator etc. in accordance with guidance in NUREG 1556, Volume 9, Revision 3, Section 8.9.1.
- b) Confirm that no Positron Emission Tomography (PET) material will be used.

You may provide your response via email directly to me. Please let me know if you have any questions.
