Subject: RE: U.S. NRC Radioactive Material License #24-32024-02

Jason,
I have review the conversation record and yes it is an accurate record of our conversation. At this time I would like to rescind the previous update to our Radiation Protection Program and only update the section addressing the RSO duties as well as naming me (Armando Lamas) the RSO on NRC Radioactive material License number 24-32024-02. Let me know if you have additional questions or concerns.

Thanks,
Armando

Mr. Lamas:

I have received your faxed response dated November 27, 2019. I have attached a conversation record detailing our telephone call on November 20, 2019. Please confirm that this is an accurate record of our conversation.

Primarily, I need to confirm your intention to rescind the request to update your Radiation Protection Program and that the only applicable portion of what was previously submitted was the section addressing the RSO Duties. The RSO Duties was resubmitted with your request dated November 27, 2019.

Thank you for your assistance.
