Hi Zarva,
Please see the UCI email regarding the exam postponed from September 2019 to FY20.
Also please note that the licensee increases a number of candidates from 2 to 17 in next FY20.

Thanks,

John

Subject: [External_Sender] UCI Operator Exams

Hi John,

Hope you're doing well. I was hoping to maybe see you at TRTR, but maybe next time. I wanted to touch base with you about getting a larger exam scheduled for the first week of June 2020. We've started our operator training program, but I'm not sure how many students will make it through to June. Right now, including the two that did not test this September 2019, we have 17 candidates. Please let me know if that week or the preceding week is available.
