Re: Control # 616241, Amendment NRC License No. 21-32322-01  
Genesys-Hurley Cancer Institute

**ATTN: Colleen Casey:**

Please find the additional information you requested to expedite our request for the addition of Dr. Paul G. Kocheril, M.D. to be added as an authorized user for the use of Ra-223 Xofigo.

- 1) We would like to remove Ahmed Akl, M.D. and Haesook S. Kim, M.D. from our NRC license as they are not currently employed at Genesys Hurley Cancer Institute.
- 2) We are not removing Dong Whan Oh, M.D. as he will continue to cover for vacations or illness after his retirement date of 12/31/2019.
- 3) We are asking for the original amendment to be expedited. As of the end of the year we will have no physicians available for on-going Xofigo patient care. Dr. Paul G. Kocheril will be the only active physician available to administer this care.

We appreciate your help with this matter. If you have any questions or require additional information please contact our physicist Dr. Ibrahim Abdulhay, Ph.D.

Sincerely,

Suzy Hosler, Med, EdS  
Executive Director
