PLA-838

Reference: PLA-827 (6/5/81)

Dear Mr. Grier:

This letter provides clarification that the above referenced PLA does in fact provide a final report on the subject deficiency. The mention of an interim report in the first sentence of the referenced PLA is incorrect and should be changed to indicate that a final report has been provided.

We apologize for the error and any confusion it may have caused.

Very truly yours,
