OFFICE OF THE CHANCELLOR
LOS ANGELES, CALIFORNIA 90024

June 12, 1981

Elizabeth S. Bowers, Esq., Chairman
Administrative Judge
Atomic Safety and Licensing Board
Washington, DC 20555

In the Matter of
The Regents of the University of California
(UCLA Research Reactor)
Docket No. 50-142
(Proposed Renewal of Facility License)

Dear Judge Bowers:

In response to two matters pending before the Board,
the University's position is as follows.

Intervenor's Request for a Protective Order

The University is not opposed to Intervenor's request
for a protective order and will agree to strike the language
"so-called anti-nuclear" from page 1 of our April 20 questions.

Intervenor's Request to qualify Mr. Hirsch as "Expert Interrogator"

We have no objection to having Mr. Hirsch interrogate
our expert witnesses under the direct supervision of Mr. Pollock.

We do request that the Board ask Mr. Hirsch to
supplement his affidavit of qualifications with additional
pertinent information. It is our understanding that Mr. Hirsch
is not a scientist and that he has not received a bachelor's
degree or any advanced degree in a science or field of
engineering. Because it is proposed that he proceed as an
expert interrogator we request that he be directed to be more
explicit about his formal educational background and to correct
us if we are wrong in our understanding.

We would like to correct a statement made in Intervenor's
request. Mr. Hirsch has not "been appointed by the Academic
Senate (at UCLA) to teach nuclear and other energy matters as a
Visiting Lecturer." Mr Hirsch is hired from time to time to
teach a course for the "Council on Education Development" (CED).

June 12, 1981

The CED is a student and faculty committee charged to promote educational diversity and innovation by seeking out and sponsoring individual courses and programs on a quarterly basis, which courses and programs are not otherwise offered by the University. Mr. Kirsch has qualified to teach in the CED and receives the classification "Visiting Lecturer" during the period of instruction.

Sincerely,

William H. Cormier
UCLA Representative
