Mr. Harold R. Denton, Director
Office of Nuclear Reactor Regulation
U. S. NUCLEAR REGULATORY COMMISSION
Washington, D. C. 20555

Attention: Mr. Robert A. Clark, Chief
Operating Reactor Branch Number 3

Gentlemen:

DOCKET NOS. 50-266 AND 50-301
MODIFICATION TO TECHNICAL SPECIFICATIONS
CHANGE REQUEST NO. 67
POINT BEACH NUCLEAR PLANT UNITS 1 AND 2

In our letter dated April 6, 1981 Wisconsin Electric Power Company (Licensee) requested amendments to Facility Operating Licenses DPR-24 and DPR-27 to permit changes to the Point Beach Nuclear Plant Technical Specifications. These changes, as described in that submittal, included modifications to the plant staff organization and staff position titles. Subsequent to that submittal, the Licensee has changed the titles of three additional staff positions indicated on Technical Specification Figure 15.6.2-2. These changes consist of the following:

1. The Reactor Engineer has become the Superintendent Reactor Engineering.
2. The Instrumentation and Control Engineer has become the Superintendent - Instrumentation and Control.
3. The Training Engineer position has been retitled Superintendent - Training.

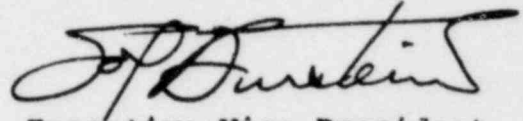

These revisions involve a change in position title only. The responsibilities and reportability of these positions are not changed from those proposed in our change request letter dated April 6, 1981. A revised Figure 15.6.2-2 which reflected these title changes has been submitted for your convenience.

Mr. Harold R. Denton, Director -2-

June 22, 1981

It is requested that these title changes be reviewed and issued along with your action on our change request number 67. Should you have any questions regarding this modification to our previously submitted license amendments request, please let us know.

Very truly yours,

Executive Vice President

Sol Burstein
