U. S. Nuclear Regulatory Commission
Washington, D.C. 20555

Serial No. 218
SP/PRB:rab

Docket Nos. 50-280
50-281
License Nos. DPR-32
DPR-37

Dear Mr. Denton:

In response to Mr. D. G. Eisenhower's letter of December 9, 1980 concerning the ratings given to evacuation time estimate studies in the Surry Power Station Emergency Plan please be advised that the company has had a consultant do additional studies of this matter. A copy of the results of the study is attached to this letter.

This study has been included in the recently revised Surry Emergency Plan which will be implemented on April 1, 1981 and a copy has been given to the State Office of Emergency and Energy Services in order to incorporate the data in the Commonwealth of Virginia Radiological Emergency Response Plan. We believe this study to be comprehensive and fulfill the requirements of Revision 1 to NUREG-0654 Appendix 4.

If you have any further questions in this matter, please contact Mr. P. R. Beament at (804) 771-4411 who is available to assist you.

Very truly yours,

E. A. Baum
Executive Manager-Quality Assurance
