

FEDERAL ENERGY REGULATORY COMMISSION

WASHINGTON 20426

IN REPLY REFER TO:

June 23, 1981

B. J. Youngblood
Chief, Licensing Branch No. 1
Division of Licensing
U. S. Nuclear Regulatory Comm.
Washington, D. C. 20555

Dear Mr. Youngblood:

I am replying to your request of May 26, 1981 to the Federal Energy Regulatory Commission for comments on the Draft Environmental Impact Statement for the Comanche Peak Steam Electric Station, Units 1 & 2. This Draft EIS has been reviewed by appropriate FERC staff components upon whose evaluation this response is based.

This staff concentrates its review of other agencies' environmental impact statements basically on those areas of the electric power, natural gas, and oil pipeline industries for which the Commission has jurisdiction by law, or where staff has special expertise in evaluating environmental impacts involved with the proposed action. It does not appear that there would be any significant impacts in these areas of concern nor serious conflicts with this agency's responsibilities should this action be undertaken.

Thank you for the opportunity to review this statement.

Sincerely,

Jack M. Heiremann
Advisor on Environmental Quality
