NRC Bulletin No. 89-02, Action Item I.A.
requested licensees to disassemble and inspect all
safety-related Anchor Darling Model S350W swing check
valves supplied with internal retaining block studs of
ASTM specification A193 grade B6 type 410 stainless steel,
and all other safety-related check valves of similar
design and material selection. A review of our records
indicates that Callaway Plant does not have any Anchor
Darling Model S350W swing check valves or any check valves
of similar design and material selection that would
require disassembly and inspection.

If there are any questions concerning this
matter, please contact me.

Very truly yours,
